Overview Landert Group – Turnover

Consolidated Turnover 1999 – 2009
[in 1'000 CHF]

Overview Landert Group – Two Business Units

Worldwide Sales & Service Network

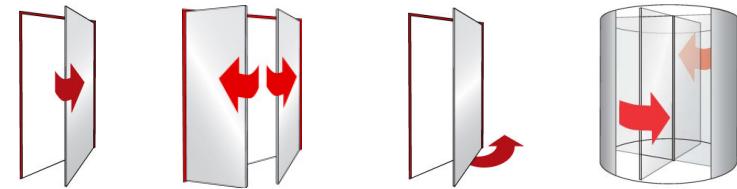

■ **TORMAX** worldwide

■ Partners worldwide

Production Center for Automatic Door Operators (1/2)

TORMAX | Landert Motoren AG
Headquarters
CH-8180 Bülach

Competence Center for ...

Operators

- Swing door operators
- Revolving door operators

Market Services

- TORMAX training center
- Research & Development
- Marketing
- Support of the worldwide Sales & Service network

Production Center for Automatic Door Operators (2/2)

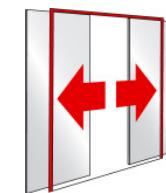

Landert GmbH
DE-86356 Neusäss

Competence Center for ...

Operators

- Sliding door operators

Production Center for Multifunctional Doors

N.V. TORMAX Belgium S.A.
BE-9090 Melle

Competence Center for ...

Systems

- Fire and smoke protection doors
- Rescue and escape routes (RER)
- Sliding and break out doors
- Burglary resistance doors with resistor classes 2 & 3
- Thermally insulated doors (DIN 14351)

Production Center for Revolving- & Curved Doors

TORMAX Denmark A/S
DK-7323 Give

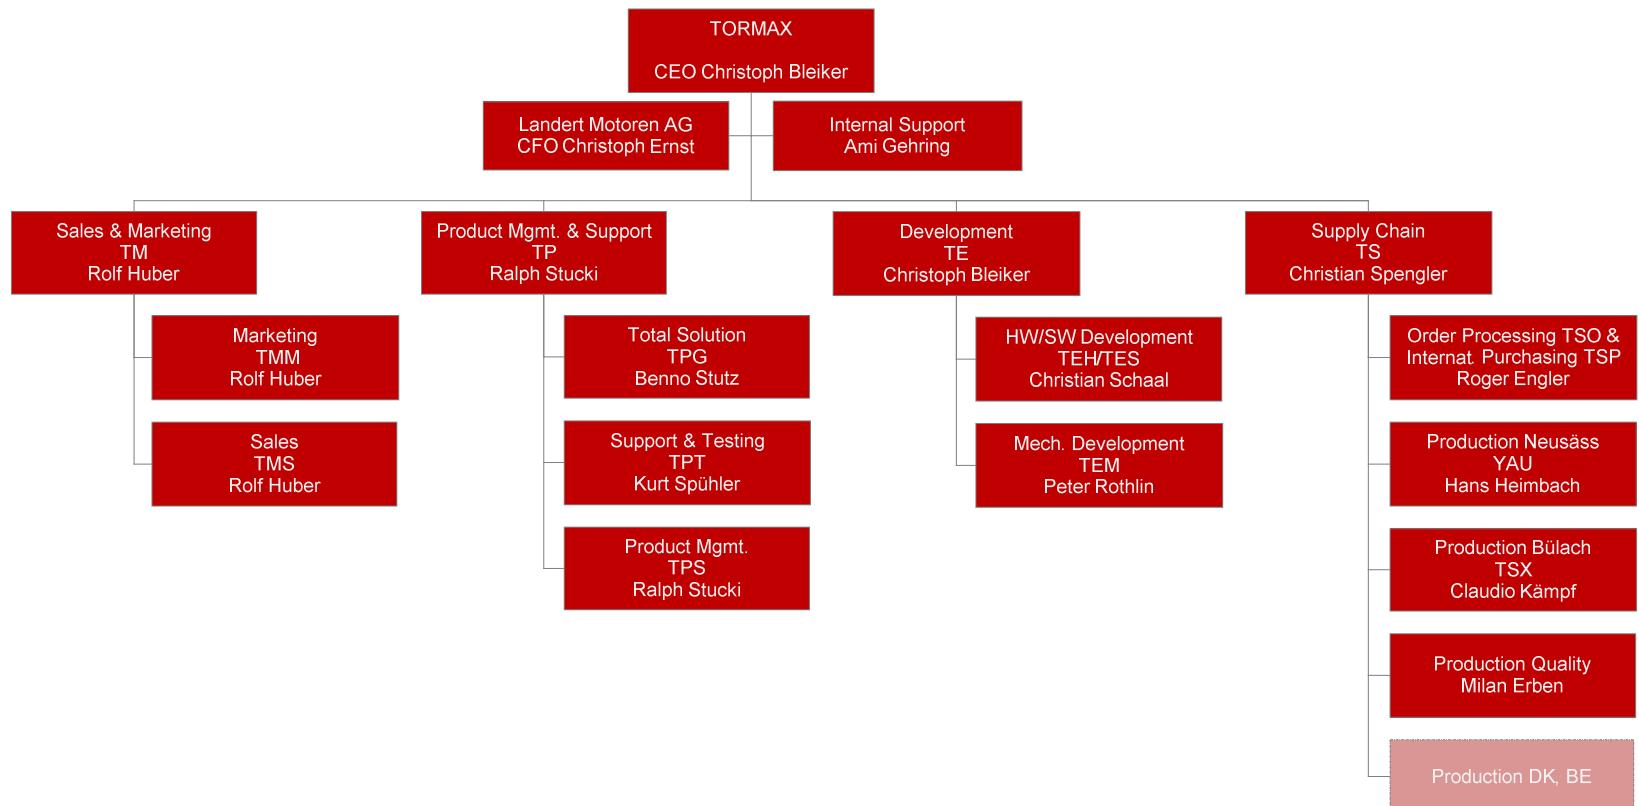

Competence Center for ...

Systems

- Classic revolving doors
- Light frame (LF) revolving doors
- Full glass (FG) revolving doors
- Curved doors

Organisation of TORMAX

State July 2010

TORMAX Automatic Door Systems

Yesterday

- First manufacturer of automatic door systems in Europe (1951)
- Market leader in the segment of electrohydraulic drives
- Drives for sliding and swing doors
- First processor controlled drive for automatic doors (1990)
- Manufacturer of asynchronous motors

TORMAX

Pioneer in the field of automatic door drives;
high quality and long lifetime of the products!

Pioneer in Door Automation – Milestones

First electromechanical sliding door drive in the industry – the birth of a new standard

1951

1963

TORMAX, first European manufacturer of automatic door drives

First independent UNINET System which integrates automatic doors in building management systems

1990

1995

First processor controlled drive for automatic doors

Today

- Processor controlled automatic door drives for sliding, swing and revolving doors
- Total Solutions (escape doors, security doors, revolving doors, etc.)
- Drive units for mid- and high-end product range
- Special applications (hermetic doors, retro kits, etc.)

TORMAX

Automatic door system manufacturer
with high quality and safety standards!

Pioneer in Door Automation – Milestones

First electromechanical sliding door drive in the industry – the birth of a new standard

1951

1963

TORMAX, first European manufacturer of automatic door drives

First independent UNINET System which integrates automatic doors in building management systems

1991

First processor controlled drive for automatic doors

1995

First door operator with integrated RISC-processor

2006

2004

First plug'n play drive unit for automatic doors

2008

First direct drive in the world

Main Demands for Future Products ...

- ... Easy to configure
- ... Permanent best performance
- ... Long lifecycle
- ... Flexible configuration
- ... Pay only what you need
- ... Minimal stock requirement
- ... Energy saving
- ... Designed for maximum recycling possibility
- ... Noiseless operator
- ... High reliability
- ... Safe operation
- ...

Tomorrow

- Intelligent solutions and products
- Modular systems
- Environment-friendly components
- Economical solutions
- PC-based configuration and servicing of components and solutions
- Built-in preventive maintenance system

TORMAX

Solutions provider for safe and high quality systems and products.
Ecological, economical, intelligent, reliable and modular solutions.
Your appealing partner for high- and midrange!

Pioneer in Door Automation – Milestones

i Motion®
the passion to drive doors

2004
First plug'n play
drive unit for
automatic doors

2006
First door operator with
integrated RISC-processor

2008
First
direct drive
in the world

2009
Setting a new milestone
in the automatic door
industry!

What is iMotion®?

iMotion® is a new family of products designed to meet the needs for today without limiting future demands.

www.imotion.net

Main Benefits

intelligent

modular

ecological

reliable

economical

Main Benefits

iMotion® offers you more opportunities!

- Self configuration
(easy to configure)
- Self monitoring/adjustment
(permanent best performance)
- Individual parameterisation
(custom tailor-made functions)

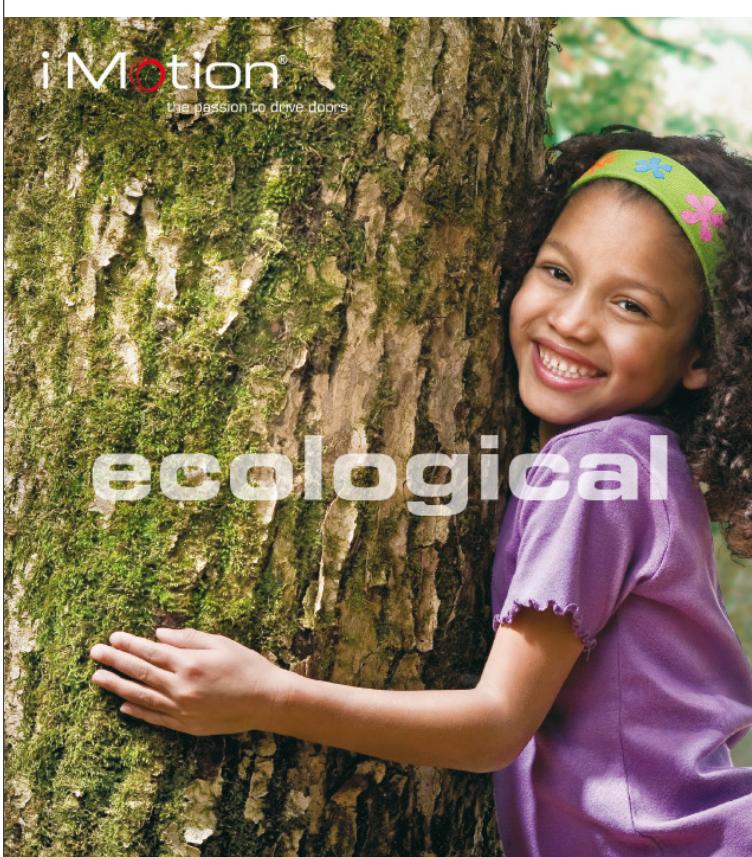

Main Benefits

iMotion® grows as your requirements grow!

- Modular System
(flexible configuration and exchange)
- Uniform design of all drives
(same control unit, user interface)
- Rapid replication of standards
(customer specific pre-setting)

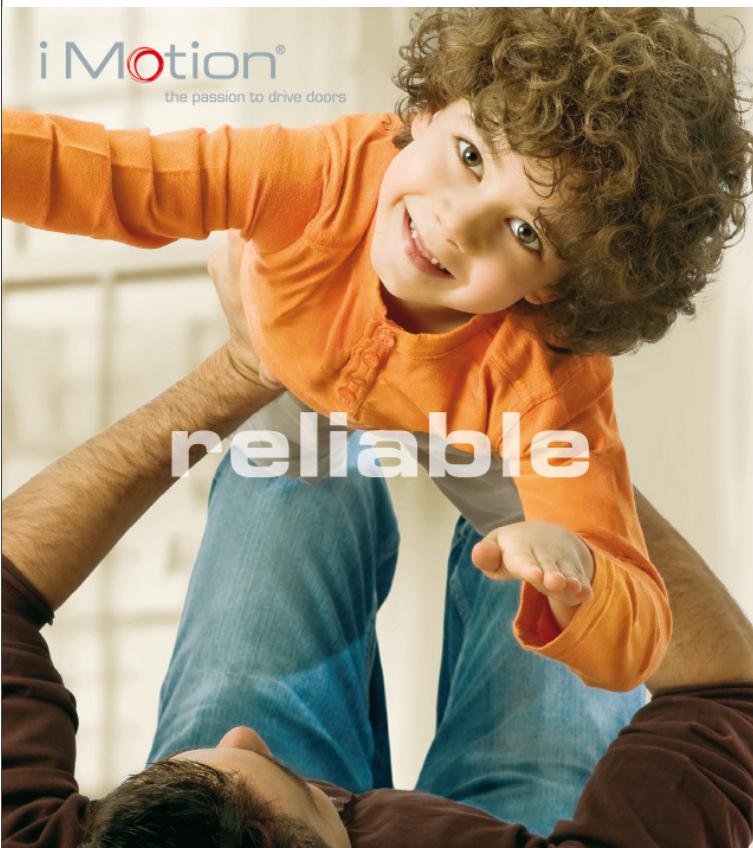

Main Benefits

iMotion® takes care of the environment!

- Energy Saving
(minimum consumption)
- Ecological Modularity
(less parts and travel time)
- Environmental friendly components
(designed for a clean future)

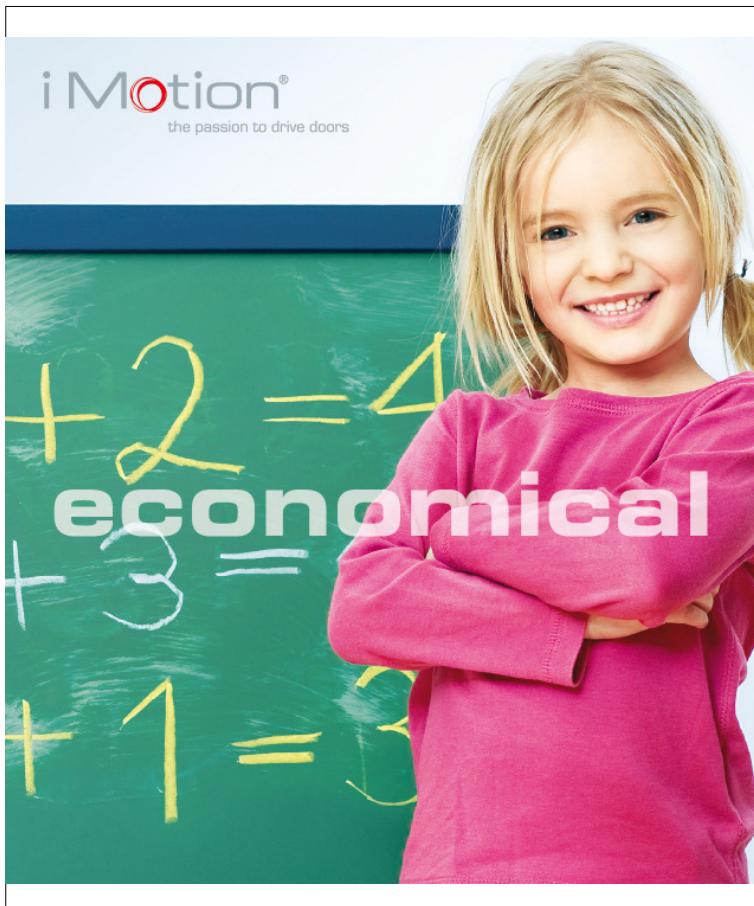

Main Benefits

iMotion® makes your life easier!

- Reliable motor technology
(noiseless, service free brush-less synchronous motor)
- High-end technology
(latest technology for high reliability)
- Long lifecycle
(early warning system)

Main Benefits

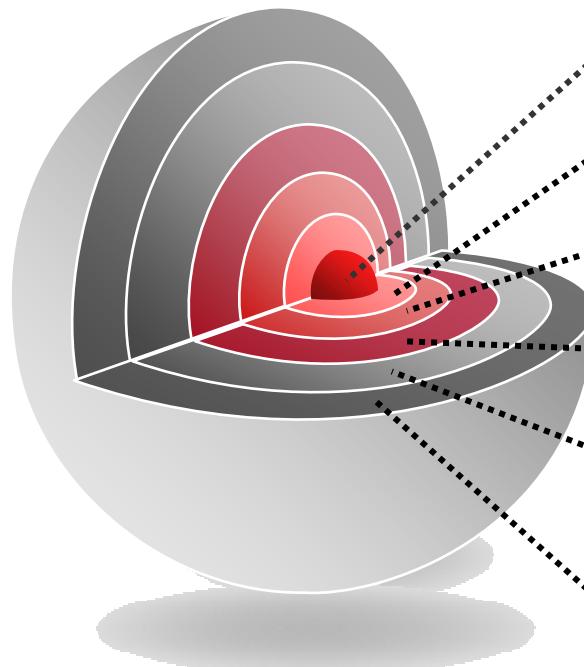

iMotion® protects your investment!

- Investment protection
(modular components, easy changes)
- Long lifecycle
(maintenance free motor)
- Function based pricing
(you pay only what you need)

Architecture

i Motion®
the passion to drive doors

MCU-32 Control Unit

Same Control Unit for all drive types

Universal Door Software

Same Software for all drive types

Configuration & Service Software

PC-Based universal Configuration and Service Software

Function Modules

Configuration Card, Input-/Output Modules, Locks, etc.

Synchronous Motor

Unique brushless & service free Synchronous Motor

Mechanics (Door Type)

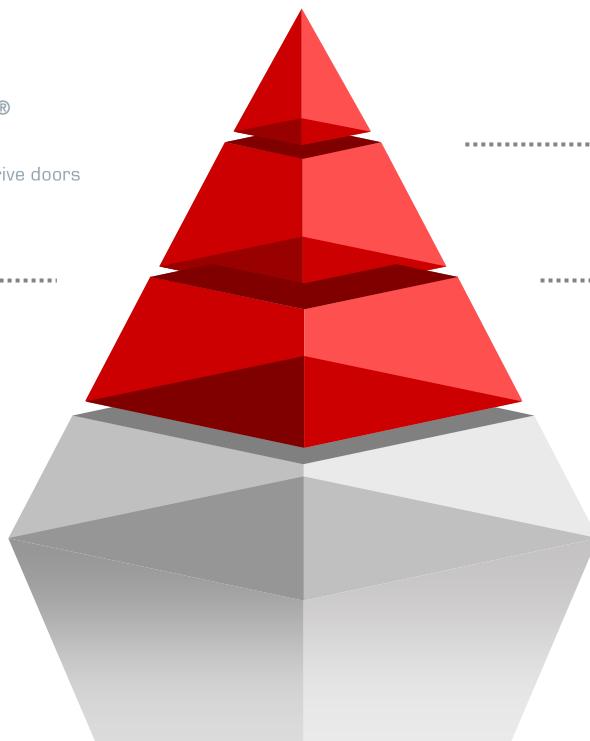

Sliding Door Drive
Revolving Door Drive
Swing Door Drive
Folding Door Drive

Product Positioning

i Motion®
the passion to drive doors

Win Drive 2201
Smart Drive 1101

No TORMAX
activity

High-End

High functionality, high quality, high lifetime

Mid-Range

Medium functionality, high quality, high lifetime

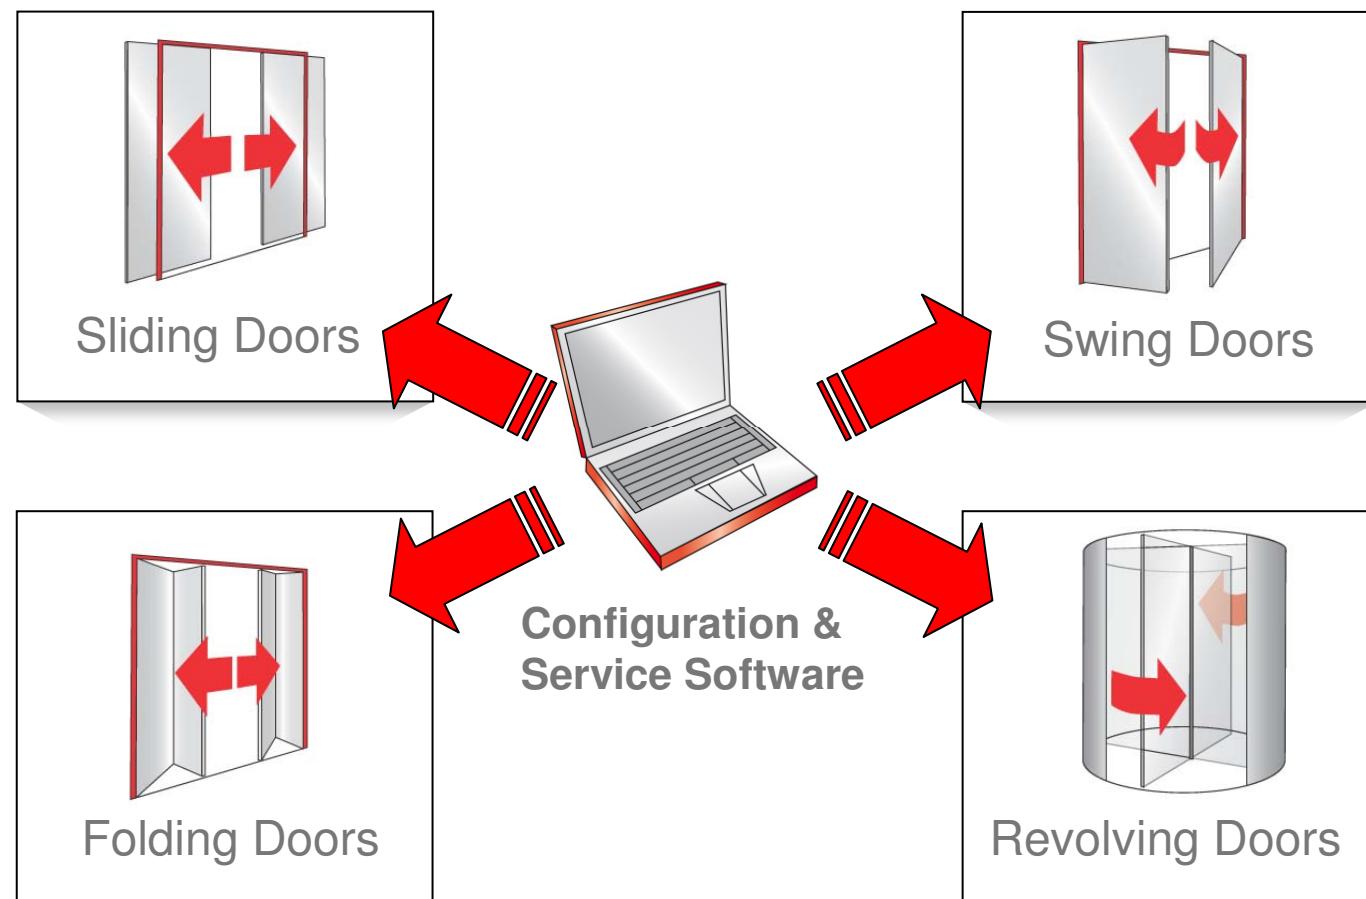

Mid-Low-Range

Medium functionality, good quality, market lifetime

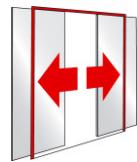

Low-End

Minimal functionality, low quality, low lifetime

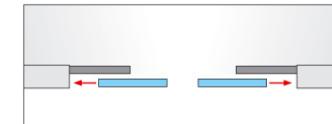

Automatic Door Systems Portfolio

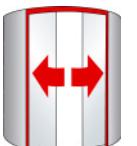

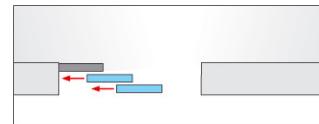

Automatic Sliding Door Systems

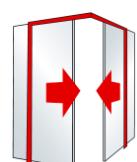

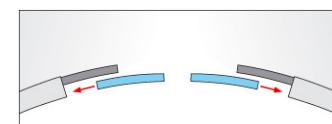

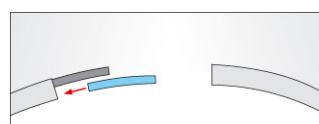

Linear

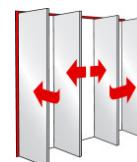

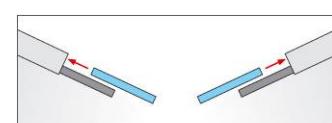

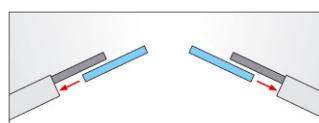

Telescope

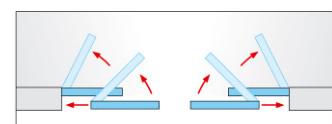

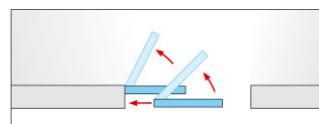

Curved

Angular

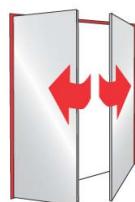

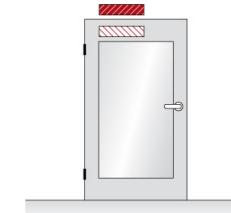

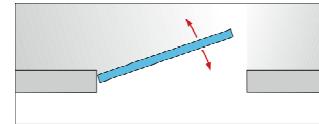

Multifunctional

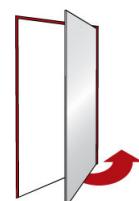

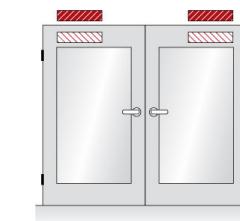

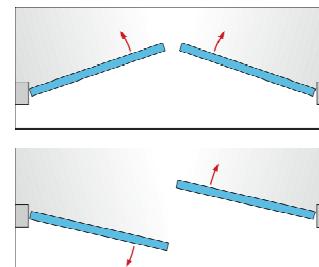

Automatic Swing Door Systems

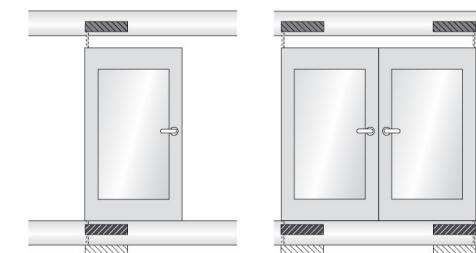

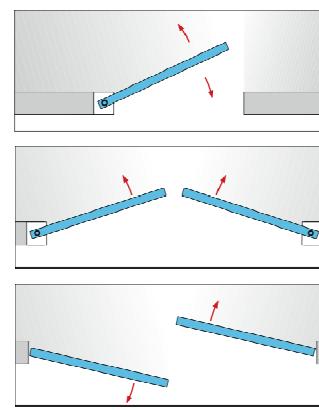

One Swing

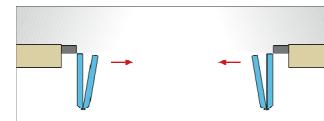

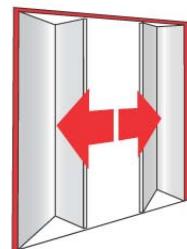

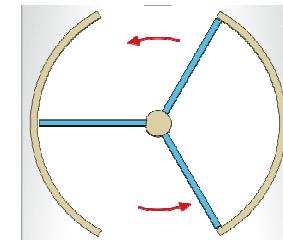

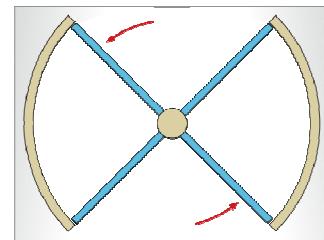

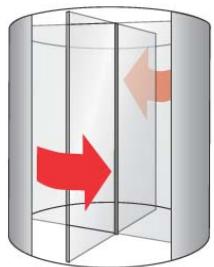

Double Swing

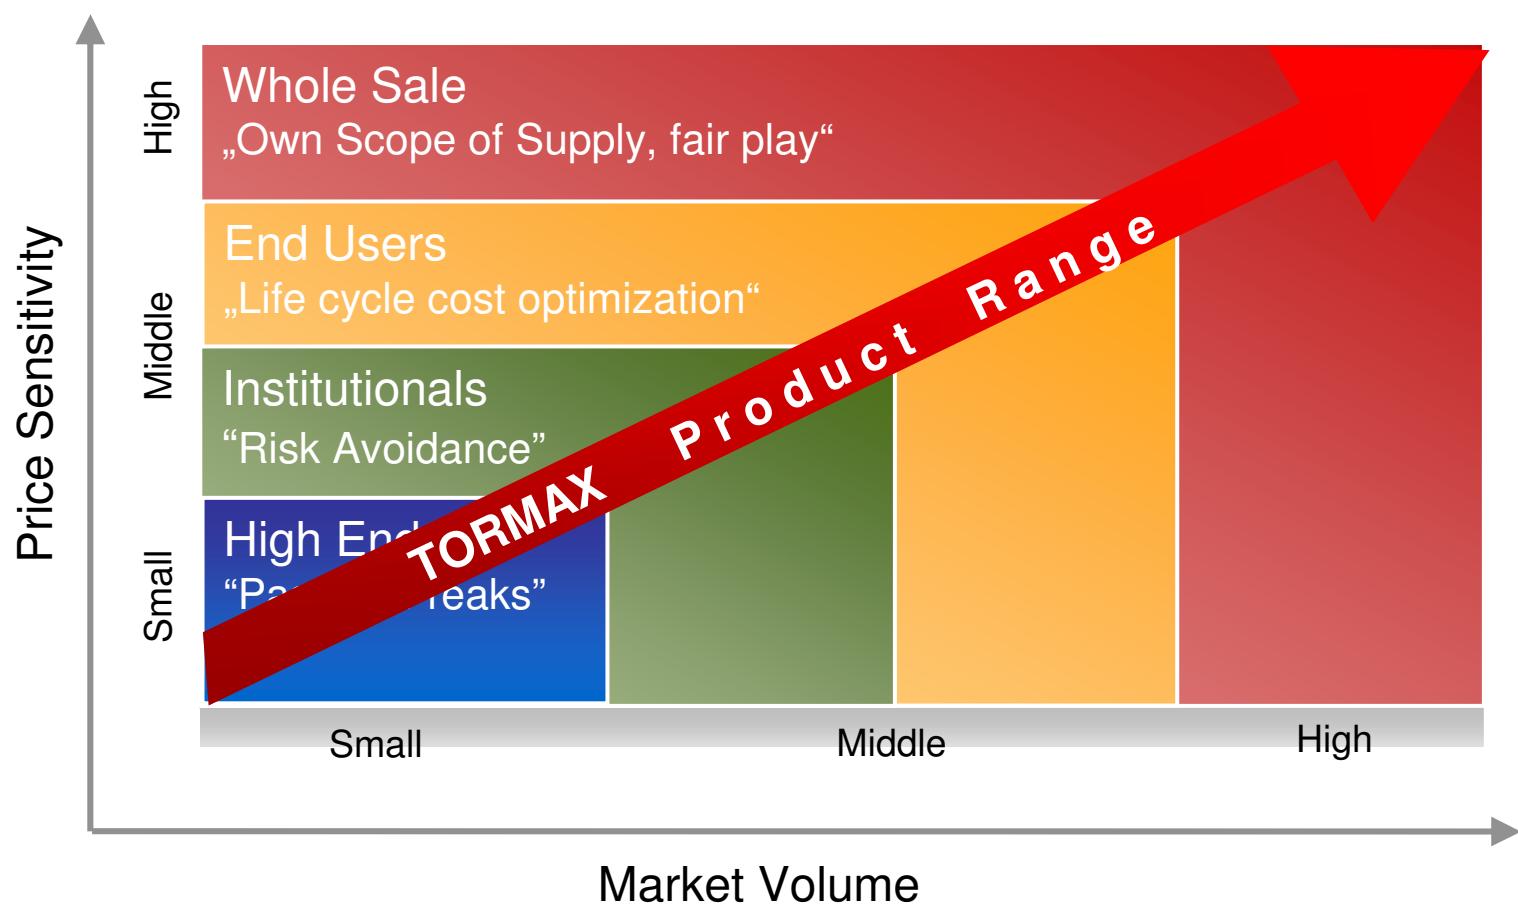

Under Floor

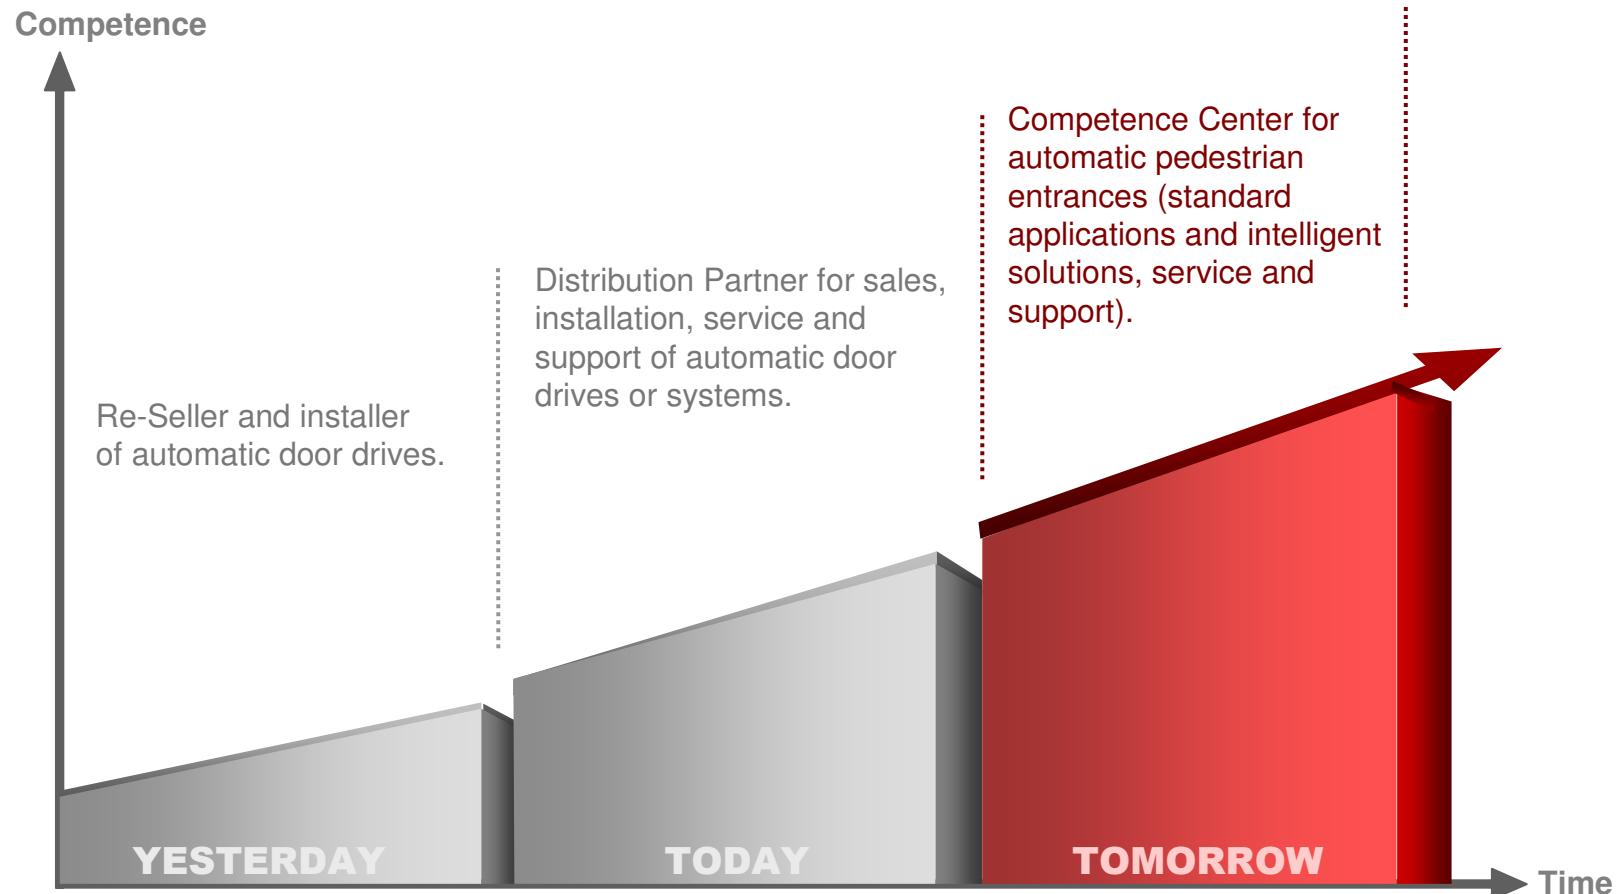

Automatic Revolving & Folding Door Systems

Market Segmentation in Mature Markets
